This box was connected with the furnace in improper manner, being placed too near the bottom, and almost in contact therewith; was done without our knowledge and was a perfection in the setting.

We, in justice to ourselves, and to avoid the charge of misfeasance, we beg to state that the whole furnace matter was placed in the sole charge of the Messrs. Lester, our only agents to them being to make the furnace safe against fire beyond a contingency.

Our air box was put in by their own work and under their entire supervision.
